Govt are of opinion that as a matter of principle the cost of repairs as well as of construction of all Local Fund Dispensaries, should be borne by the District, municipal and Provincial Funds, as they are utilised by the rural and municipal population as well as by the servants of Govt. The cost of construction is now met from the municipal and Provincial Funds in the proportion of ~~one to two~~ one-third and two-thirds, while the cost of repairs is met ~~from the Local funds without any fixed~~ either wholly from Provincial Funds or from both funds without any fixed principle. In either case District Funds Contribute nothing at all. The exemption was allowed with a view to obviate complica in accounts

From 1894-95 therefore, Govt resolve to direct that the cost of construction of all the future dispensaries, as well as the cost of repairs of all dispensary buildings, be met from Provincial, district and municipal funds in equal proportions. In the case of dispensaries not situate in municipal towns such cost will be divided equally between district & Provincial funds.

In regard to the current year for which most of the Budgets have been passed the Chief Engineer is requested to debit the entire cost of repairs to Provincial, the cost of construction alone in municipalities, being divided as usual between municipal & Provincial funds in the proportion of $\frac{1}{3}$ and $\frac{2}{3}$ respectively, except in
